INTRODUCTION:

=====

SURFING FOR EXPOSURE ...

=====

Your browser not only displays pages from the World Wide Web, but can also be used as a significant promotional medium. How many times do you fire up your browser each day? Ten? Twenty? Thirty times? [Fast Freeway](#) gives you a 2:1 ratio of browser-starts to exposures. By opening your browser, say, ten times a day your site will be displayed to five randomly selected people opening their browsers somewhere across the vastness of cyberspace.

That's not five links or five banner impressions that your counterparts could easily ignore. The lucky five are delivered directly to your website of

choice. Banner impressions typically enjoy a click-thru ratio of between 1% and 5% -- 1 to 5 people out of every 100 will click on a banner. The five displays of your website (not your banner) are thus worth up to 500 banner displays!

But if you still think that a measly five exposures is not worth the trouble, think again. I'll show you how to turn these five visitors into MANY more ... and how to use the combined effectiveness of this "magic" act of multiplication into an unstoppable perpetual-motion traffic-generation machine.

Follow the Traffic Monster Report program step-by-step and you'll be astonished at the traffic that is generated!

STEP #1:

=====

Watering The Roots ...

=====

Login to your [Fast Freeway](#) member's page and you'll discover two links ...

1: Your startpage link:

[http://www.fastfreeway.com/start.php3?num=\[Your ID\]](http://www.fastfreeway.com/start.php3?num=[Your ID])

2: Your referral link:

[http://www.fastfreeway.com/index.php3?ref=\[Your ID\]](http://www.fastfreeway.com/index.php3?ref=[Your ID])

Every startpage exchange will provide you with TWO important URL's: a startpage link (to generate traffic) and a referral link (to grow your downline).

Since most startpage exchanges will give you a certain percentage of the traffic generated by your downline (Fast Freeway gives you an incredible

20%!), downlines of a certain size can literally MULTIPLY your own effectiveness.

Take [Fast Freeway](#) for example. Since they give you 20% of the traffic generated by your referrals (and by your referrals' referrals – four levels down), it only takes five referrals to "clone" yourself. With a downline of five members, there are now TWO of you! And as your downline grows, there will be three, four, five ... MANY of you. Your downline will generate traffic for you.

You probably launch your browser at least 10 times a day, right? Suppose, now, that you refer your friends, Irving and Henrietta, to Fast Freeway. Like you, Irving and Henrietta both fire up their browsers ten times a day. With our 2:1 conversion, they generate ten displays. And you get 20% of what they generate -- 2 displays.

Disappointing? Two measly displays is hardly worth the effort? Read on!

Okay, now Irving and Henrietta will each want to introduce two of their friends, and those friends will introduce two others, and so on, four levels deep. Assuming that each person revs up the ol' browser ten times a day, the action of your downline alone would generate 300 browser-starts (and 150 exposures). What do you get out of this? 20% -- 30 visitors directly to your site -- for doing absolutely nothing!

But surely you have more than two friends or professional associates. Suppose that you and each person in your downline introduces ten people to [Fast Freeway](#). Assuming ten browser starts a day, you will generate 111,110 browser-starts and get 11,110 displays of your website across the Internet -- every day -- even without switching on your computer! Now that's exposure!

STEP #2:

=====

Perpetual Motion ...

=====

In the programs I'll introduce you to, you will receive a certain number of website exposures not only for your own efforts, but also for the efforts of your referrals ... and your referrals' referrals ... and so on down for several levels. If you "recycle" your traffic back into your traffic-generation programs, you will receive perpetual and growing returns.

With the automatic, self-perpetuating, perpetual-motion Mega-System that you'll construct over the next few days, you will arrive at a point at which you will never need to promote again.

But ... until then (and even after then) you will want to "feed the monster" (generate your own traffic) for even greater effect. Later, we'll discuss a number of specific promotional techniques to feed the monster and give you the maximum possible exposure.

Perpetual Motion is created when promotion feeds itself -- when prospects generated by your promotional efforts enter the downlines of the very programs you use to generate prospects. It's a continuous loop. You promote the very machinery of promotion. Traffic generated is cycled back into your traffic-generation programs.

Here's a simple illustration. You've signed up with [Fast Freeway](#). Suppose you also sign up with, say, [Traffic Syndicate 25](#) ...

If you use your Fast Freeway referral link as the target URL in [TS25](#) and use your TS25 referral link to as the target URL in Fast Freeway, what do you think will happen?

Actually, if that's ALL you do, the answer is ... nothing! But suppose you apply some energy to this interactive system by promoting Fast Freeway or TS25 (or both) ... or by simply using your startpage links to generate browser displays. It won't be long before your downlines in both programs begin to grow ... and grow exponentially. And after you've "cloned" yourself several times, your downlines will continue to grow automatically. You won't have to do a thing, and your downline growth will continue to accelerate on its own. That's perpetual motion!

=====

APPLYING ENERGY TO SYNERGY ...

=====

If I can encourage you to apply energy to generate perpetual-motion "synergy" and both startpage exchange programs grow in membership, then [Fast Freeway](#) is happy, [TS25](#) is happy ... and of course, YOU are deleriously ecstatic!

It's a Win ... Win ... WIN situation!

But there's more. Most startpage exchange programs will give you a certain number of credits (or visitors) just for signing up. Programs vary. It's easy to see however, that the more startpage programs you sign up for, the more start-up credit you receive. This is a great little boost of energy to get your perpetual-motion, synergistic, traffic-generation Mega Machine rolling.

If you use startpage program A to promote B and B to promote A ... that's easy enough. But it quickly becomes a LOT more complex when you sign up for a number of startpage programs to take advantage of the surge of start-up credit that each one provides.

In the following steps to come, I'll lead you – step-by-step – through a simple procedure that will create synergy out of a number of startpage programs and generate an AWESOME cascade of downline sign-ups to power your perpetual-motion traffic-generation machine.

Your "assignment" for today, however, is simply to gather your tools. The following are vital components of the system you will build. And fear not ... they won't break the bank.

Sign up with all the following free traffic-generation systems:

[Profit Rally](#):

[Traffic Swarm:](#)

[Click Here For Traffic Swarm](#)

Next, I'm going to ask you to sign up for all the free startpage programs contained in Profit Rally, 10MinutesADay, Traffic Hoopla, and eBiz Rotator. Jump into the process today, if you like. But ...

If you just can't stand the suspense, then ...

1. Join [Profit Rally by Clicking Here](#)
2. Login, click "URL Rotator".

3. Enter your [Traffic Swarm](#) referral URL and click "Add URL."

4. For each startpage program that allows rotator links, enter your Profit Rally rotator link (pointing to TrafficSwarm).

No matter how strong the temptation, DO NOT use a link to one of your favorite opportunities.

STEP #3:

=====

Ready For Action? ...

=====

Ready for ACTION? Roll up your sleeves, tie on your track shoes and take your position at the starting gate.

On your mark. Get set. Go!

In the last step, we talked about a simple synergistic model in which one startpage exchange is used to promote another, and the second to promote the first. But what if you sign up for a number of startpage programs? (And of course, you'll WANT to do that -- both to take advantage of start-up credit and to "clone" your efforts by growing your downlines.)

You could use A to promote B, B to promote C, C to promote D ... Y to promote Z and Z, in turn, to promote A. But that's hard to keep track of ... and not very effective.

Here's a MUCH simpler approach. It's a little like ping pong --A serves to B and B bats the ball back to A. A and B are not startpage exchanges, however -- but something immensely more powerful that takes advantage of the leverage created when a member of a SINGLE downline signs up in MULTIPLE startpage programs under you.

It will take a little effort to get the A and the B set up properly. But in taking the time to set up the system properly, you will have created an unstoppable, perpetual-motion traffic-generation machine.

Before, I asked you to sign up with five programs ...

[Profit Rally](#)

[10MinutesADay](#)

[Traffic Hoopla](#)

[eBiz Rotator](#)

[Traffic Swarm](#)

If you didn't get a chance to sign up before, you'll need to do it NOW before we proceed.

=====

A. Setting Up Your Profit Rally Rotator ...

=====

Is a never-ending cascade of visitors worth \$10 a month? If you have something valuable to sell ... or a downline to build ... it certainly is. Pro

membership in [Profit Rally](#)... provides a rotator which can rotate UNLIMITED URL's. Click the "Pro membership" link at the side of the page and see what else you get with Pro membership. If you already have a rotator, that's absolutely fine, but if you find yourself rotator-less ... well, Profit Rally is a great investment.

Even though you can rotate unlimited URL's don't go wild just yet. For now, just enter your TrafficSwarm referral link. You'll later see why.

There's one more rotator you'll need to make the system work. But this one's fairly easy. [Traffic Hoopla](#) ... provides you with a startpage rotator that you can use to generate traffic credit. Login to TrafficHoopla, click TH Kick-Off and then Web Browser.

Okay, no more Mr. NiceGuy. I'm going to put you to work. Yes ... it's tedious, unpleasant, time-consuming, tiring, boring ... But if you like traffic ... just do it. Do it carefully and thoroughly. But take heart! You only have to do it once. When it's over, it's over. You're free! AND ... best of all ... you're on your way to generating unstoppable, perpetual-motion tidal waves of traffic.

But to save you hours of labor later in the game, I'd like you to take two minutes right now to sign up with [Profit Rally](#)-- a free program with an incredible advantage ...

[You can Sign Up Here](#)

Of course, you'll eventually want to join the traffic-building programs listed on the "Traffic Exchanges" page and record your ID's. But for now, login and click the "URL Rotator" link. Now enter your [Traffic Swarm](#) referral URL and click "Add URL." You'll need your Profit Rally rotator link soon. So keep it handy.

Here's the "hard labor" you've been sentenced to. Sign up for each of the programs below.

Make TWO lists ... one for REFERRAL URL's and one for STARTPAGE URL's. You can use Notepad or any convenient plain text editor for this purpose. Each time you sign up for a startpage exchange program ...

1. Copy the REFERRAL URL into your REFERRAL list.
2. Copy the STARTPAGE URL in your STARTPAGE list.
3. BE SURE to use your Profit Rally rotator link (pointing at your TrafficSwarm site) as your target URL.
4. Remember the Unlimited slots you get in your Pro Profit Rally rotator? Here's another great reason to upgrade ... You can put them to good use in generating traffic for you. Add your TrafficHoopla, 10MinutesADay and eBiz Rotator referral links to your Profit Rally rotator. And, for every startpage exchange that is NOT listed in Profit Rally.

There are several traffic exchange programs that will not allow redirect links -- ViralVisitors, ClickAholics, ViralClassAds and LemmingsRun, for example. In these cases, simply use your TrafficSwarm referral link as the target.

Also, many of the traffic exchange programs below require that you "test" or "activate" your link. After you have entered your target link, check to be sure that there is nothing else required. If the system asks you to "test" or "activate" your link, be sure to follow through. Otherwise, your link will not rotate in the traffic exchange.

Okay. On your mark. Get set. Here goes ...

First sign up with [Clicks Matrix](#):

[By Clicking Here](#)

I put this one first because it's "green." You get paid through fifteen levels just for referring new members. And you might just enjoy that. Now on with the show ...

Start here. Join [Profit Rally by Clicking Here](#):

... and then sign up with every startpage program listed.

Then login to [10MinutesADay](#) and transfer your user ID's. If there are programs listed in 10MinutesADay that are not listed in Profit Rally ... join `em.

Do the same with the startpage exchanges listed in [Traffic Hoopla](#).

And the same with the startpage exchanges listed in [eBiz Rotator](#) .

IMPORTANT! ...

Once again -- whenever possible, use your Profit Rally rotator link (pointing at TrafficSwarm) as your target URL when signing up for startpage programs. You'll see why this is important later.

Okay. I know you're exhausted. Give yourself a break. You can return to the sign-up frenzy later, if you like. But just in case you have a few quanta of energy left, join any of the following programs that you haven't yet joined. If you want to save this for tomorrow, that's fine. But don't forget! Most of these programs will give you a burst of start-up credit that will help to fuel the machine ...

Sign up with any other startpage exchange programs you find in Profit Rally, 10MinutesADay and Traffic Hoopla.

=====

SWARMS OF LASER-DIRECTED TRAFFIC ...

=====

Among MANY other things, [Traffic Swarm](#) serves as a rotator. With a single URL you can promote a multitude of programs (at least ten) ... for free! And for a very modest sum, you can become a "Pro" and promote an unlimited number of programs with your one TrafficSwarm address. Why? The term of art is "diversified streams of income." You'll be able to earn from a variety different programs. And as TrafficSwarm downline grows, you'll have a chance to earn a handsome residual income from the "Pro's" in your downline.

For months, I assumed that TrafficSwarm was just one more traffic exchange network -- like those you've signed up with ...

Boy, was I WRONG!

It does have some features in common with most startpage exchange programs. So I got that much right. But it's SO ... much more than that.

Take a look at your [Traffic Swarm](#) Startpage... and you'll see what I mean. Go ahead. Indulge yourself. Click to your heart's content. You won't break it.

You'll see that the page presents several descriptions. Since you're free to click whatever you choose, you will tend to click on the description that interests you, right? Your visitors will, too. They first read your site description and ... CLICK! They're at your door.

All have landed at your site out of their own curiosity and interest. These prospects are FAR more likely to take the action you want them to, because they read your description before they decided to click. What you get is literally unlimited quantities of motivated AND pre-qualified visitors to your site ... day after day. We're not talking about random web surfers or other low-quality traffic here. These are solid leads!

=====

GREEN FLASH ...

=====

What do you think would happen if you upgrade your TrafficSwarm account to PRO?

Here's the bottom line ...

Suppose you refer five new Pro affiliates to [Traffic Swarm](#). And suppose each of these five Pros refers five more. And so on down for five levels. Here's the math ...

Level 1 -- 5 Pro members -- \$5.00 per member = \$25.00

Level 2 -- 25 Pro members -- \$4.00 per member = \$100.00

Level 3 -- 125 Pro members -- \$3.00 per member = \$375.00

Level 4 -- 625 Pro members -- \$2.00 per member = \$1250.00

Level 5 -- 3,125 Pro members -- \$1.00 per member = \$3,125.00

TOTAL: \$4,875 ... per month!

PLUS ...

--* As a Pro member, you get 2,000 credits each month. And if that brings in one or two sign-ups for your favorite opportunity, the investment is well worth it.

--* You will receive an equal share of the "Featured Sites" links displayed on the main web site ... 1000's per month!

--* There are so many other advantages it makes me dizzy just thinking about them.

=====

C. Setting Up Your TrafficSwarm Rotation ...

=====

As a free member, you can rotate up to ten different descriptions throughout the TrafficSwarm network. But DON'T! For now, you need only one ... Your [Traffic Hoopla](#) address.

I know you'll be tempted to add additional descriptions. But stifle the urge. That dilutes the effectiveness of the system you're building.

To enter your description, login, and scroll down to "Manage Your Site Promotions." Immediately below, you'll see "Add a New Site Address." Click the link and enter a title and description for your Traffic Hoopla.

What URL? What title? What description?

Be sure to use your Traffic Hoopla address. Just to be clear, you will enter ...

[http://www.traffichoopla.com/cgi-bin/ref.cgi/\[Your ID\]/](http://www.traffichoopla.com/cgi-bin/ref.cgi/[Your ID]/)

Here's a scant handful of sample titles. Try coming up with a catchy, original title of your own.

A Never-Ending Cascade of Traffic

SHOCKWAVES of Traffic ...

Generate Unbelievable Traffic

Tidal Waves of Traffic ... Yours F.R.E.E

And here's a description you might use ...

AMAZING. Generate MORE traffic than you can possibly handle. This fully-automated traffic-generation system can send 1000s of motivated prospects to your site, every single day, absolutely F.R.E.E!

But try your hand at writing your own description.

Now, by promoting a single URL (TrafficSwarm) and by the combined energy of your rapidly growing downlines, you will generate more downline sign-ups ...

... which will generate even more exposure for your TrafficSwarm site

... which will refer more people to your Traffic Hoopla site

... which will generate more startpage sign-ups

... which will generate even more exposure for your TrafficSwarm site ...

Well, you get the idea ... perpetual motion.

=====

A QUICK RECAP...

=====

Here are the schematics of the awesome perpetual-motion traffic-generation machine you've just constructed ...

1. ALL of your startpage programs are pointed (directly or indirectly by way of your [Profit Rally](#) rotator link) to your TrafficSwarm REFERRAL page.

2. Your [Traffic Swarm](#) description is pointed to your Traffic Hoopla.
3. Your new [Traffic Hoopla](#) members will sign up for your the startpage exchanges in Traffic Hoopla, thus creating more residual traffic from your startpage exchanges.
4. Your startpage exchanges will display your Profit Rally rotator. And if you're a Pro member, you can include all your other traffic-generating programs and grow your downlines in TrafficHoopla, [10MinutesADay](#) and eBiz Rotator, generating an ever-increasing traffic flow.

These four together form a continuous loop. Round and around we go .. each time picking up more momentum. And with an occasional infusion of energy, you have a system that will generate an unbelievable traffic flow. It starts in low gear. But don't be dismayed. It takes time. But the system REALLY works. It's tried and proven. Stay with it.

You've now created a Monster ... a Monster with a voracious appetite! Next, we'll talk about "feeding the monster" and bringing it to life. Or in a different image, I'll show you how to get your perpetual-motion traffic-generation Mega Machine off the ground ... and soaring!

STEP #4:

=====

Fuel For The Machine ...

=====

Imagine, You've carefully built this flying contraption from reliable specifications. You've connected all the parts exactly according to the directions. And now the day comes to test it out. You crank the propeller, and what happens? Nothing! Not a "putt"! Not a murmur. Not even a groan ... except, perhaps, the one that you emit after having wasted all that effort. What's wrong? No fuel! The thing won't fly without fuel.

The perpetual-motion traffic-generator that you've carefully constructed over the past couple of days can't get perpetually motivated without an initial burst of energy. And yes ... once you get it in the air, it will fly higher and higher ... and ultimately will consume no fuel whatsoever.

An airplane expends a large proportion of its fuel on take-off. It takes a lot more energy to get it up in the air than to keep it there. The same is true for your Monster Traffic Mega Machine. Your rocket needs a powerful first stage to achieve escape velocity.

There are two ways to power the machine ... one won't cost you a cent and the other costs so few cents -- and delivers so much that the cents definitely make sense.

=====

The No Cost Option ...

=====

Here's how you can feed the monster without spending a dime.

1. Point your browser to ...

<http://www.crazybrowser.com>

... and download Crazy Browser. It's "priceless" (in both senses). Crazy Browser is a powerful web browser. It has the ability to open multiple windows in a single browser task. It can handle multiple monitors and has tab status indicators. Annoying pop-ups can be removed automatically and multiple pages can be saved and reopened together.

2. If you haven't yet joined the multitude of startpage exchange programs listed before, now is a good time to do so.

3. CrazyBrowser has a feature that allows you to save any array of URLs as a group. In the address line, type in your [TS25](#) startpage URL (NOT your referral URL). Press the Enter key and the TS25 surf page will load. Now type in, say, your [Fast Freeway](#) startpage URL (again, NOT your referral URL) into the address line and click Enter. Continue in this way until all of your URLs have been entered. Now click "Groups" and then "Save all pages as a group." Name your group and click to save.

4. Now every time you start Crazy Browser you can simply click on the saved group in the menu bar displayed from the drop-down menu under "Groups." When the pages finish loading, you can press F3 to go to the next hit exchange program to bring up new pages in the manner required by each program.

5. If you have a slow connection or a computer with limited capacity, opening a large number of pages at a time may strain your system. In this case, experiment with fewer pages for optimum performance.

6. Crazy Browser allows you to disable popups by clicking on "Options" in the top menu bar, then "Advanced Settings" and then "Popup Filter" in the drop-down menu.

Using Crazy Browser with a cable connection, you can generate 900 hit credits in a little over an hour. Set your own target according to your connection speed and time constraints.

Even without referrals, working several startpage exchanges at once in this way will generate swarms traffic for you. With the additional traffic you receive by sharing this method with your referrals, the potential is breathtaking! And you don't need to spend a single penny!

There are MANY startpage programs on the Internet today. The method you have learned here is SEVERAL TIMES more powerful than any single program could be by itself.

=====

Relief for the Sore Click Finger ...

=====

The CrazyBrowser approach will definitely help to get the machine in the air ...

... IF you have the time to put it into practice, and ...

... IF you have the persistence to stay with it day after day, and ...

... IF your click finger can bear the strain.

But there's low-cost alternative ... in fact, shockingly, absurdly low cost. Purchase an Ad Co-Op from [PageSwirl](#) :

[By Clicking Here](#)

This will grow your downlines in all your programs at lightning speed. Your downline members are your "employees." It's like having an army of browser-openers doing the work for you -- in fact, doing far MORE work for you than you could ever do by yourself using Crazy Browser.

This is the rocket fuel that will propel your craft skyward! And it's just about the least expensive way to generate gigo-swarms of traffic. It's unmistakably worth the modest investment. It will get the craft airborne and set the perpetual motion machine whirring.

=====

MORE Relief for the Sore Click Finger ...

=====

You can apply energy to the system at two places ...

1. The [PageSwirl Ad Co-Op](#) ...

and ...

2. [Traffic Swarm](#)

... with similar results.

TrafficSwarm offers a practically irresistible "PRO" option that will give you 2,000 display credits every month.

Why upgrade to PRO?

Well, 2,000 credits a month is a great incentive. But if that doesn't move you, here's the bottom line ...

Suppose you refer five new Pro affiliates to TrafficSwarm -- a perfectly doable feat. And suppose each of these five Pros refers five more. And so on down for five levels. Here's the math ...

Level 1 -- 5 Pro members -- \$5.00 per member = \$25.00

Level 2 -- 25 Pro members -- \$4.00 per member = \$100.00

Level 3 -- 125 Pro members -- \$3.00 per member = \$375.00

Level 4 -- 625 Pro members -- \$2.00 per member = \$1250.00

Level 5 -- 3,125 Pro members -- \$1.00 per member = \$3,125.00

TOTAL: \$4,875 ... per month!

Is this really going to happen? Well, let's put it this way ... It's as easy for each member of your downline to pull in five PRO affiliates as it is for you. TrafficSwarm is not the royal road to wealth. But hey, suppose your PRO downline grew by only two levels. You would still be earning SEVERAL TIMES your monthly investment. Worth it? Absolutely!

PLUS ...

As a Pro member, you get 2,000 credits each month. And if that brings in significant handful of sign-ups for your startpage programs, the investment is definitely worth it.

PLUS ...

The links to your sites will be entered into the "Featured Sites" rotation with other Pro users and you will receive an equal share of the "Featured Sites" links displayed on the main web site ... 1000's per month! This will generate even more sign-ups for your favorite programs.

So ... What's the most reasonable thing to do right now? Yup! Drop everything and go for it ...

1. Purchase a [PageSwirl Ad Package](#), and
2. Upgrade to "Pro" in [Traffic Swarm](#)

We'll talk about other ways of feeding the Monster Next. But I know you're eager to turn the Monster loose to gobble up prospects for your favorite money-making opportunity. Internet marketing is like an ice berg. The sale is only the very tip. And below it lies an enormous amount of traffic. How many downline members do you need in your startpage programs in order to produce sales ... and ultimately, in order to generate a substantial income? The mysteries will be revealed Next. Stay tuned.

STEP #5:

=====

Integrated Multi-Program Traffic System ...

=====

Before, I showed you how the exponential growth of your [Fast Freeway](#) downline (you refer ten, your referrals refer ten, and so on) could easily generate over 11,000 visits a day for you.

This is NOT "pure mathematics"! It can actually happen ... IF you promote Fast Freeway and your other startpage exchanges consistently using the techniques you've learned here.

But before you get too excited by the possibilities of generating over 11,000 hits a day ... hands free! ... let me remind you that Fast Freeway is only ONE of MANY powerful startpage traffic-generators. What would happen if you received 11,000 hits a day each from a large number of startpage programs?

You don't have to answer that. But take me with you on your world cruise (... the one you take after retiring from the drudgery of the nine-to-five routine).

The real secret is to get a substantial and active downline under you so that each of your members generates traffic for you just by doing what ... in the age of computer technology ... comes naturally -- firing up the browser. But how do you get LOTS of people signing up under you for LOTS of startpage programs?

Ta-da! (Drumroll, please.)

Behold ... the Integrated Multi-Program Traffic Generation System!

You've already signed up with two (maybe three) IMPTGS's ...

1. [Profit Rally](#)
2. [10MinutesADay](#)
3. ... and [eBiz Rotator](#)
4. Another SUPERB example is the [Home Income Team](#):

[Click Here To Go To The Home Income Team](#)

5. You also want to include the [TV Coop](#):

[Click Here To Go To The TV Coop](#)

6. And (of course!) [Traffic Hoopla](#)

Why sign up for all six? Simple, powerful idea ... With one net, you catch only a certain number of fish. With six nets, you catch six times as many. The startpage programs and traffic-generators featured in the IMPTGS's overlap. So to a large extent, all your "fish" are being directed to the same fish ponds.

By promoting all six systems in the strategic ways proposed here, you grow your startpage exchange downline five times faster and achieve five times more traffic than you would with just one system.

Sign up with each of the "Big Six". Then go into each of your systems and follow the instructions to the letter. Sign up for ALL the free traffic-generation programs. Your user ID's are transferable from system to system. So after you've gone through the sign-up process with one system, you can simply copy your ID's to another.

Make yourself a mug of coffee, put on your favorite music ... and just do it. At least you can dream of the traffic (... and income! ...) you'll receive as a reward.

And if you follow the Traffic Monster program ... it's more than a dream!

Once again, it is VERY IMPORTANT that you sign up for ALL of the traffic generators -- at least the free ones -- and PROMOTE all your IMPTGS's. This is the key to the building your Traffic Monster System. If you haven't done the work, go off and do it now.

=====

THE MONSTER LIKES RICH FOOD ...

=====

Put away the celery sticks and lettuce leaves. Pile on the chocolate sauce and whipped cream. The traffic-generating Monster you've created thrives on the richest food available.

One sign-up per sign-up doesn't provide enough "calories" for the beast. But suppose you could get several ... even numerous ... sign-ups from a single sign-up. Well, you can.

Take [10MinutesADay](#), for example. Each of your 10MinutesADay referrals will sign up for SEVERAL startpage programs. So here's a quiet word of advice ... Sign up with ALL the free traffic-generation programs listed in your 10MinutesADay Sign-Up Module. Be kind to your budget. There's no need to sign-up for the paid programs -- unless, of course, you happen to like the color green.

Once you have populated your Sign-Up Module, enter your 10MinutesADay referral URL in your [Traffic Swarm](#) rotation (and also to your [eBiz Rotator](#)). You now have two TrafficSwarm profiles ...

1. 10MinutesADay
2. eBiz Rotator Referral URL

Okay, I know you've been itching to add more profiles to your TrafficSwarm

rotation. Now's the time. Continue with your remaining IMPTGS's ...

3. [TV Coop](#)
4. [Home Income Team](#)
5. [Profit Rally](#)
6. [Traffic Hoopla](#)

IMPORTANT ... be sure that you've signed up for the free traffic-generating programs featured in each. And make **DOUBLY** sure that you have entered your username for each startpage program in your IMPTGS's.

When someone signs up for 10MinutesADay, for example, you will receive an email notification -- complete with your referral's name and email address. It's courteous and customary to acknowledge the sign-up with a "thank you" message and to follow up your welcome message with coaching and encouragement. You can follow up "strategically" by sending your downline members a timed sequence of email messages encouraging them to complete the Sign-Up Module.

Without hype or exaggeration, [Aweber](#) is the most powerful, versatile ... and affordable! ... email marketing system on the Internet today. Take a moment to check it out ...

<http://www.webcashlink.com/aweber.html>

But you can also get a free autoresponder at [GetResponse](#) at:

<http://www.getresponse.com/index/kawgates>

Every time you get a [10MinutesADay](#) sign-up, send your new member a series of "encouragement" messages prompting them to sign up for ALL the free traffic-generators.

And (... important! ...) in subsequent messages encourage your downline to sign up with your other IMPTGS's as well.

Aweber and GetResponse have **MANY** other uses, as well. A simple one-to-one autoresponder (one send, one reply) has a thousand uses -- confirmation replies for ads you post at classified sites, training messages and instructions, site information, free reports, customer satisfaction surveys, testimonials, FAQ's, serialized ebooks ... the list is limited only by your imagination.

But to sell your product and get results, you need a one-to-many follow-up autoresponder (one send and a series of follow-ups). Consider the facts ...

- ** 2% of sales are made on the 1st contact
- ** 3% of sales are made on the 2nd contact
- ** 5% of sales are made on the 3rd contact
- ** 10% of sales are made on the 4th contact
- ** 80% OF SALES ARE MADE ON THE 5TH-12th CONTACT

Clearly, repeated exposure is the key to success.

=====

TURNING THE MONSTER LOOSE ...

=====

Suppose you construct the perpetual motion traffic-generation system and fuel it with a high-octane [PageSwirl Ad Co-Op package](#) ...

Your downlines are now growing like crazy and your system is beginning to buzz and vibrate from all of that pent-up energy. When do you turn the monster loose? When do you introduce a money-making opportunity into your TrafficSwarm rotation?

Let's do some math. One tenth of one percent is a fairly reliable ratio of visits to sales. This figure expands and contracts with a number of factors ... the perceived need for your product, your website design, the season of the year, the cost of the item ... but let's run with 1/10 of a percent. That means that out of 1,000 visits, you should get one sale.

Let's suppose that you earn \$10 in commission or profit for each item sold. To make \$1,000 a week, you would have to sell 20 "widgets" a day. So you would need 20,000 website visitors a day to make this happen.

To maintain perpetual-motion traffic growth, you must ALWAYS ensure that there are MORE traffic-generating than money-generating profiles in your TrafficSwarm rotation. When the time is right, you will first introduce JUST ONE money-making opportunity into your [Traffic Swarm](#) rotation. So your profiles will be distributed like this ...

1. Traffic Hoopla
2. 10MinutesADay
3. Home Income Team

*

*

*

10. YOUR FAVORITE OPPORTUNITY

But since your favorite opportunity is ONE of several profiles displayed randomly and equally, you will really need at least eight times the anticipated 20,000 hits a day ... 160,000 - 200,000 visits (320,000 - 400,000 browser starts) ... a day!

Whew! Does that sound impossible? It's not. But it might take half a lifetime to accomplish ... and LOTS of visitor packages. So, in short ... don't get your hopes up.

But wait! You don't have to do it all yourself. That's what multi-level downline structures are all about. Suppose that every time a member of your income-generating downline makes a sale, you receive 1/10 of what you would make if you had made the sale yourself. You need only 10 downline members to "clone" yourself. For every ten sales they make, you get \$10. You don't need 20 personal sales a day. You need 200 downline members making one sale a day.

You should be able to convert 4,000 visits a day into two downline members. It would then only take you 100 days (less than a third of a year) to reach your target of 200 downline members.

Now granted that this is a very simplified picture and every multi-level opportunity is different, the principle is still the same. Use [Traffic Swarm](#) to recruit downline members, instead of making sales. Put your downline to work for you.

So again, when can you turn the monster loose? When you have enough visits each day to generate one or two downline members. And assuming that you're working within a good MLM structure, that amounts to about 4,000 visits (8,000 browser starts) a day. Visit the member's section of each of your startpage exchanges and see how many visits you're generating daily. Add them up and see if they total 4,000. If not, continue to use your TrafficSwarm rotation to grow your startpage exchange downlines.

Speaking of a "good MLM structure" ... in fact, a GREAT MLM structure ... check out [Empowerism by Clicking Here](#)

Again ... There should ALWAYS be more traffic-generators than income-generators in your TrafficSwarm rotation. The higher the proportion, the better. Aim for a 3:1 -- or better, a 4:1 -- ratio of traffic-generators to income-generators.

=====

"Your Favorite Opportunity" ...

If you've been paying attention in class, you understand the value of rabbits ... They MULTIPLY! Internet marketing is all about transforming ONE into MANY. You must be able to promote ONE URL and get sign-ups for MANY programs. If not, your efforts are wasted.

Remember [Profit Rally](#)? If you didn't do your homework, the exam is right around the corner. So do it now ...

[By Clicking Here](#)

Profit Rally is the ONE program that will help you generate downlines in MANY income-generating opportunities.

So ... a word to the wise. I know you're eager to promote that special opportunity. But suppose you could do that ... AND generate multiple streams of income at the same time? And suppose, also, that you could MULTIPLY your IMPTGS sign-ups with Profit Rally? And suppose that you could also promote many of your other startpage exchange programs? And all this with a single URL?

Does it make sense to enter [Profit Rally](#) as "Your Favorite Opportunity" in one of the [Traffic Swarm](#) addresses? It's a no-brainer, right? Do it.

Have I worn you out yet? After all the sign-up frenzy you deserve a rest. Next I'll show you how to push back from the computer, walk away, even go on vacation, while your computer is hard at work tirelessly and automatically generating traffic.

STEP #6:

=====

Force Feed The Monster ...

=====

The Monster is ravenous! Only the richest food will satisfy its voracious appetite. You're already giving it a high-calorie diet of [Profit Rally](#) ...

... seasoned with a liberal helping of [10MinutesADay](#) ...

... and a taste of the [Home Income Team](#) ...

... and accompanied with [eBiz Rotator](#) ...

... and a sprig of [Traffic Hoopla](#)...

But the beast is still hungry!

Here's a way to get your computer to force-feed the Monster ... automatically ... by taking advantage of a selection of auto-surf programs.

This little technique requires a website. If you already have a site ... Super! If you don't, there's no need to spend a fortune. In fact, you can find free website hosting by doing a search at Google.

... and it will serve the purpose perfectly.

If you're looking for professional quality domain hosting, I highly recommend

[Host4Profit](#) at:

<http://www.webcashlink.com/host4profit.html>

But again, this isn't necessary. The free version will do just fine.

1. ...

Sign up with [Banners GoMLM](#), a free banner exchange program that gives you a 1:1 exchange ratio ... PLUS 10% of the exposure generated by your downline. [Sign Up Here](#)

And sign up with the following banner exchanges, as well ...

[TDH Banners](#):

[Free Banners](#):

[Ad Tactics](#):

[Fair-X Banners](#):

Some of these programs offer more than a banner exchange. But for present purposes, we're only interested in the banner exchange. In each case, copy

the banner code provided into Notepad or a convenient text editor (NOT into a word processor page). And be sure to SAVE this as a text document.

2. The banner you enter into each exchange should be arresting, attention-grabbing. The [10MinutesADay](#) banner is a good choice. It's cute, eye-catching and pulls well. Login to your 10MinutesADay member's section and scroll to the bottom of the left-hand frame. You'll see a "Banners" link. Walk right in and get your 10MinutesADay banner code.

With [Banners GoMLM](#), you may have to create your own mini-banner. But the home page of the site offers free resources for building a catchy banner for this purpose.

3. Create and publish a web page with a "banner farm" (a stack of banners) at the bottom using the code from the banner exchange programs you signed up for. You'll find an example at ...

<http://www.webcashlink.com/bannerf.html>

4. I'm going to send you off on a sign-up mission again. Here's the plan ...

First, sign up with ALL the auto-surf programs you can find on the Net using the URL of your banner farm page

Second, your auto-surf programs will generate credits for you automatically. Websites are rotated every 15-30 seconds. And with each rotation, you receive credit. By letting just one of your auto-surf programs run for eight hours while you're sleeping, the program will rotate at least 57,600 times -- maybe more.

[AutoSurf USA](#), for example, offers an incredible 5:4 display ratio. Your banner farm gets 80% of the the exposures you generate -- just by leaving your computer on and setting your browser to your AutoSurfUSA surfing link.

You can check out [AutoSurf USA by Clicking Here](#)

Each time your banner farm page is displayed, you receive banner exchange credit. This generates more sign-ups in 10MinutesADay and helps you grow your startpage exchange downlines.

The auto-surf program may reject your URL if it's nothing but a simple banner farm. That's why I suggest that you place the "farm" at the bottom of a page designed to promote another opportunity or traffic-generating program you're involved in.

Simple, right? Okay. Off you go. Sign up for all the autosurf programs you find on the Net.

Guess what you can do with your auto-surf links ... Yes, this is another job for Crazy Browser ...

Create an auto-surf group in Crazy Browser and, in a couple of clicks, all of your programs will open. Depending on the speed and capacity of your computer, you may have to divide these links into several groups.

Here's another little trick. Take a look at ...

<http://www.webcashlink.com/bannerf.html>

... and notice what happens. The page automatically refreshes itself every few seconds. And every few seconds you get a new jolt of credit from your banner exchanges. Leave it on all night, and you can generate a LOT of banner credit!

Want to know how to do it? Easy! Simply insert ...

```
<meta http-equiv=refresh content=10>
```

... between the <head> and </head> HTML tags of your banner farm page and turn the page loose to generate swarms of banner impressions ... and [10MinutesADay](#) sign-ups ... and startpage exchange downline members!

Nifty, eh? You can be out for a night on the town ... even on vacation ... and so long as the auto-refresh banner farm page is loaded on your browser, the Monster is automatically fed.

Here's another very useful device. You can use an ad-free Rotator such as [Page Swirl](#) rotator page to rotate the "Big Five" traffic-generators ... Profit Rally, 10MinutesADay, eBiz Rotator, Home Income Team, and Traffic Hoopla.

Can you imagine other uses? Here's one. Create a rotator like the one above except with the URL's of your favorite income-generating opportunities. Then enter the URL to your program rotator as one of your [eBiz Rotator](#) addresses. That will extend the range of your eBiz Rotator rotation without limit!

If you have a website, take advantage of the two (absolutely AWESOME!) referral generating tools that [Traffic Swarm](#) offers -- the Search Box and the Link Box. Install both at your site and your TrafficSwarm downline will grow like wildfire!

STEP #7:

=====

A Few More Tricks ...

=====

Now its time for odds and ends. The Monster has been force fed ... even force fed automatically. But it's always hungry, and I have a few more tricks up my sleeve that will nourish the beast. They will ALL help to grow your traffic-generating downlines.

1. ...

The [Safelist Boys](#) submitter makes it practically effortless to join countless safelists. And you can send your message to ALL of them with a click of your mouse ...

[Click Here For Safelist Boys](#)

And the SMASS [Auto-Safelist Submitter](#) is a superb supplement that allows you to promote to an entirely different range of safelists ...

[Click Here For the Auto-Safelist Submitter](#)

Use both Safelist Boys and Auto-Safelist Submitter every day and publish to HUNDREDS of safelists.

You'll want to join as many safelists (especially the free ones) as time and patience allow. Make it a habit to fire up your safelist submitters every day and promote one of your traffic generators.

Here's an ad I use for [10MinutesADay](#) ...

SUBJECT: 10,000 Hits a Day ...? Impossible!

BODY:

Hype? Unrealistic? Impossible? How could you POSSIBLY get 10,000 Hits a Day to your website of choice? If you're very lucky (and very techno-savvy), search engines might generate a few hundred hits for you. But 10,000? Get real!

And if you DID manage, to get 10,000 Hits a Day, you'd have to mortgage your home and rob your children of their college education, right?

What would you say to ... um ... f r e e ?

And to turn the tables ... "reality" is on the side of those who take action. Go ahead ... PROVE it's not possible. Join 10MinutesADay ...free! Follow the program, step-by-step, and PROVE that 10,000 Hits a Day is impossible.

Sorry, Charlie. That's a bet you're going to lose. If you care about website traffic and don't want to pay for it, the solution is exactly one click away ...

How about emailing hundreds of thousands of people spam free who are eager to hear your offer? The real secret of email marketing is not a matter of blasting your ad to millions of email addresses that nobody looks at anyway, but the ability to send your ad directly to people who requested information from you and are eager to hear your offer. It is essential to generate a massive flow of prospects who have already qualified themselves by expressing an interest in exactly the product, service or opportunity that you're engaged in. Many promotional strategies employ a "shotgun" technique -- appealing to a wide range of people, very few of whom have any interest in pursuing your opportunity. Where are the droves of traffic? The swarms of prospects? The battalions of customers? You need precision targeting.

Time to set the Monster loose? If you've walked the path with us ... each step of the way ... you should now be seeing a dramatic improvement in your traffic flow. You may soon be ready to unchain The Monster. But which way? What direction? That's the topic Next. Stay tuned for the chilling saga of The Traffic Monster.

STEP #8:

=====

Unchain The Monster ...

=====

Hope you've saved each issue. And more importantly, I hope you've taken the practical steps necessary to EXPLODE your traffic.

The newly released Traffic Monster takes a hop, scratches its reptilian head in bewilderment, and comes to a full stop. So many directions! So many ways to go. What to do?

You don't have to venture forth into cyberspace long before your mailbox is inundated with junk mail. Everyone wants you to buy something, join something, do something. You can hop about wildly, swallowing every so-called "opportunity" that comes your way ...and wasting hundreds, maybe thousands of dollars of hard-earned cash in the process ... OR, you can come to a full stop, not knowing which way to go ... and not earning a dime.

Or maybe, just maybe, there's an alternative. Who would you rather take advice from ... the risk-avoider who never takes a hop or the excessive risk-

taker who has hopped all-too-much, wasted the equivalent of a year's income on useless money-draining schemes ...and, sadder but wiser, has won a degree of wisdom in the process?

I'm a recovering "program junkie." Yes, I confess. I've been a gullible, wide-eyed impulse joiner. But I've lived to tell the tale. And thankfully, I'm not entirely brain dead!

So what I want to offer in the remainder of this message is the distilled wisdom of years of random "swallowing" ... directionless hopping that got me no place.

But sometimes you have to sift through a lot of sand and pebbles before you find that one nugget of gold. And then you know you're on to something.

I know you have your your own opportunities to promote. In fact, that's why you signed up for this Course, right? If your opportunities are actually working for you ... Super! You've found that nugget of gold ... and probably with far less expense and wasted effort than it took me.

But if you're still hopping about aimlessly, gulping and bewildered, here's a short stack of opportunities that REALLY work. I understand the meaning of "really" from painful personal experience. When I say that they REALLY work, I mean...

1. You WILL make money.
2. With a little effort, you WILL make LOTS of money.
3. The money you make WILL exceed your promotion costs.

These programs are the cream of the Internet crop. Please give them serious consideration ...

Very best of wishes for your online ventures.

Take care ... and until we meet again ...

With Warmest Regards ...
